

DATABASE CORRUPTION DETECTED

=====

IMMEDIATE ACTIONS:

1. STOP all application services

```
sudo systemctl stop odoo nginx
```

2. ASSESS damage extent

```
sudo -u postgres pg_dump --schema-only production_db > schema_check.sql
```

3. RESTORE from last known good backup

```
sudo -u postgres dropdb production_db  
sudo -u postgres pg_restore -C -d postgres backup_file.backup
```

4. VERIFY data integrity

```
sudo -u postgres psql -d production_db -c "SELECT COUNT(*) FROM res_users;"
```

5. RESTART services only after verification

```
sudo systemctl start postgresql odoo nginx
```

CRITICAL
